Kangaroo Island

4-day birding & wildlife tour

30 Oct – 2 Nov 2025

Just off the Adelaide, SA coast, Kangaroo Island harbours a unique, diverse wildlife, specialised birds, striking scenery (including remarkable granite formations) and vast tracts of wilderness, protected in many reserves. The dawn chorus at sunrise is something to behold, and walking through the bush is rewarded with a delight of sounds and images from a huge variety of different bird species. Spectacular coastlines harbor an amazing variety of birds and wildlife.

Well-known for its wildlife, Kangaroo Island is home to "Kangaroo Island Kangaroos", tammar wallabies, echidnas, brush-tailed possums, bottle-nosed dolphins, Australian sea-

lions, Australian and New-Zealand Fur Seals and many of the 250 birds listed for the island can be seen year round in their natural habitats during our 4-day guided tour. Key birds include the endangered Glossy Black Cockatoo, colonies of Short-tailed Shearwaters, Hooded Plover, Cape Barren Goose, Rock Parrot, the elusive Western Whipbird and the cute Fairy Penguin as well as many sea and land birds.

This all-inclusive guided tour departs from and returns to Adelaide, SA. You will stay on the island and take daily trips out exploring its natural wonders, fascinating habitats, prolific birds and varied wildlife.

Tour starts & finishes: Adelaide, South Australia

Scheduled departure & return dates:

- 30 October – 2 November 2025
- Any other time as a private tour

Kangaroo Island 4-day tour Nov '25

ITINERARY

Day 0: 29 Oct '25 Please arrive in Adelaide on 29 October 2025, in preparation for an early departure tomorrow morning. Transport, meals and accommodation are your own responsibility today. We will pick you up from your accommodation in the city centre tomorrow morning. If you're staying elsewhere, please contact us to arrange a central meeting location.

Day 1: 30 Oct '25 After breakfast you'll be picked up from your hotel and we will travel down the scenic Fleurieu Peninsula, stopping along the way to look at some of the mainland birds such as Yellow-tailed Black Cockatoo, Adelaide Rosella and various waterbirds. At the end of the peninsula we will reach Cape Jervis, the departure point for the Kangaroo Island ferry. The ferry takes about 45 minutes to cross and we may see ocean birds such as Australian Gannet and up to three species of Shearwater during the crossing. After arrival on the island we will have lunch as we travel to our accommodation scenically located at the bay of American River where we will be staying for two nights in quality ensuite rooms at the Mercure Kangaroo Island lodge, surrounded by lush bushland. Once settled in we can head out birding for the rest of the day. The bay across from the lodge often has Black-tailed Native Hens, Latham's Snipe and a host of other bush birds. In the evening spotlighting in and around the park can be very rewarding with an amazing range of nocturnal animals such as Tamar Wallabies, Koalas and Brown Bandicoots which can all be commonly encountered here. Overnight: **Western River Kangaroo Island Park** (en-suite cabin, meals included: L, D).

Day 2: 31 Oct '25 Today we'll explore the various National Parks which cover many parts of the island. Kangaroo Island offers easy viewing of the rare Cape Barren Goose and it is also famous for its abundant Koalas and Kangaroo Island Grey Kangaroos (the kangaroo from which the island gets its name). We may also see the Short-beaked Echidna as it forages for ants and termites. First thing in the morning we'll head down to the south coast in the hope of spying the hard-to-see White-bellied Whipbird and Southern Emu-wren. The coastal scenery here is spectacular and is home to a colony of New Zealand Fur Seals at Cape du Couedic where we'll also find the magnificent Admiral's Arch, a spectacular coastal grotto. We'll allow plenty of time to photograph the various rock formations at Remarkable Rocks and Admiral's Arch while we search the surrounding bush for Crescent, Tawny-crowned and Purple-gaped Honeyeaters. We'll head back to the visitor centre for lunch and then visit the seal colony at Seal Bay. Next, we're off to the north coast where we hope to see breeding Hooded Plovers on the beach and have our first chance to see the endangered Glossy Black-Cockatoo. Biologists and local landholders have taken steps to expand the breeding opportunities of this species and its population is slowly growing. Back to American River for another chance of seeing the Glossy Black Cockatoo along with waders, waterbirds, the elusive Nankeen Night-heron and

bush birds such as the Beautiful Firetail. We'll have dinner in Penneshaw before visiting the Penguin Centre after sunset for the chance of seeing breeding Little Penguins on a guided tour of their colony.

Overnight: **Western River Kangaroo Island Park** (en-suite room, meals included: B, L, D).

Day 3: 1 Nov '25 If required, we'll have another search for the Glossy Black Cockatoo or any other birds we may still need before checking out of our accommodation and heading back toward Kingscote. We'll look for breeding Eastern Ospreys before heading to Penneshaw to take the ferry back to the mainland. We'll keep an eye out for Short-tailed Shearwaters and Australian Gannets that may be foraging above the ocean. Not far from here is the estuary of Australia's largest river, the Murray, and we'll skirt around this huge lagoon checking out various sites en-route. One of these sites is Tolderol Reserve which is one of South Australia's best kept birding secrets. A series of small lagoons with varying water levels harbor an amazing variety of water-dependent bird species, including Caspian and Whiskered Tern, numerous migratory waders – Sharp-tailed Sandpiper is common, there are usually a few Pectoral Sandpipers around, and more often than not, some rarity turns up here. Ducks, swans, grebes, herons, egrets and the rare, elusive Australian Bittern also live here. One of the cutest 'little brown jobs' is the Golden-headed Cisticola and with luck we'll see a few of these little gems. At the end of the day we arrive in Meningie, on the far eastern end of the estuary, at the start of the longest salt lagoon in the world: the Coorong National Park. Overnight: **Lakeview Motel, Meningie** (en-suite room, meals included: B, L, D).

Day 4: 2 Nov '25 This morning we'll head into the Coorong National Park to see the stunning coastal scenery – salt pans, tranquil lagoons, huge sand dunes – and looking for birds such as Purple-gaped Honeyeater, Southern Scrubrobin, the elusive and local specialty Rufous Bristlebird and who knows, with much luck a Malleefowl. Stopping on the way back to Adelaide in the scenic, lush Adelaide Hills we look for a variety of colourful parrots including the Adelaide Rosella, Scarlet Robin, Brown and White-throated Treecreeper, Owlet Nightjar on its daytime roost, White-winged Chough, many species of honeyeaters and with luck, the beautiful Diamond Firetail (finch). We arrive back in Adelaide sometime in the afternoon. After breakfast tomorrow (included) you'll need to make your own onward transport arrangements. Or why not continue on our Great Southern Tour? Read on below. Accommodation: **Hotel in Adelaide** (en-suite room, meals included: B, L, D).
