

# Peninsular Malaysia

April 20-28, 2027

Safe, comfortable and reliable. This is the perfect tour for those who have always wanted to bird South-east Asia but have had some reservations – until now, that is! Join our Bellbird and local guide on this tour and be amazed at how sophisticated and modern this country has become in recent decades. Travelling and birding here are a breeze and Malaysia has many fascinating and beautiful birds awaiting us. We'll stay at comfortable, quality accommodation with a range of food to suit all taste-buds; the road network is excellent, while the locals are friendly and helpful. And the birds... there's an amazing variety to be observed, ranging from the stately Crested Fireback and magnificent Rhinoceros Hornbill to forest floor gems like Banded Pitta and Striped Wren-Babbler. Oth-

er specialities include Black Eagle, Black-thighed Falconet, Large Green Pigeon, Black-bellied Malkoha, Blue-rumped Parrot, Buffy Fish Owl, Rufous-backed Kingfisher, Banded Woodpecker, Crested Jay, Green Magpie, Large Wren-babbler, Long-billed Spiderhunter, Crimson-breasted Flowerpecker, Malayan Peacock-Pheasant, the strange Rail-babbler and the cute Black-and-Red Broadbill. We have exceeded 210 species on the last 3 tours! There are many mammals (including Tapir), flowers and beautiful butterflies to be observed. This tour explores one of the richest areas for birds in Southeast Asia, featuring Kuala Selangor, Fraser's Hill and famous Taman Negara National Park.

## Detailed Itinerary

### Day 0: 20 April 2027

#### Arrival in Kuala Lumpur

Fly to Kuala Lumpur International Airport (own arrangements), where you will be greeted by our Australian guide and transferred to your hotel (transfer and hotel included in price) to rest and refresh. Should you decide to travel earlier, please make your own way to our hotel this evening. We will meet for dinner, introductions and orientation.

Overnight: Kuala Lumpur, en-suite hotel rooms

Meals included: Dinner

### Day 1: 21 April 2027

#### Kuala Lumpur, Krau Forest and Taman Negara

After an early breakfast we'll depart Kuala Lumpur for the drive to Bukit Tinggi, a bird-rich hill with native forests and beautiful botanical gardens. Our first introduction to Malaysian birding will be an impressive one with many birds awaiting us here, including a chance of the rare Malaysian Peacock-Pheasant. Moving on to Krau forest, a remnant lowland rainforest which provides us with a chance of two of Malaysia's most beautiful species: Banded Pitta and Scarlet-rumped Trogon. We'll have lunch in a local restaurant and travel into the interior of the peninsula, to the jewel in the crown of Malaysia's National Parks: Taman Negara rainforest. We'll settle into our accommodation for the next couple of days before heading out for more birding.

Overnight: Mutiara Resort Taman Negara, en-suite hotel rooms

Meals Included: Breakfast, Lunch, Dinner

### Day 2 & 3: 22 & 23 April 2027

#### Taman Negara

We'll spend two full days in the well-known Taman Negara National Park. Protecting the largest remaining tract of virgin rain forest in peninsular Malaysia, it is often regarded as one of the finest reserves in the world. A visit to Taman Negara is a profound experience for any naturalist. On entering the forest one is immediately overwhelmed by the awesome tranquillity and timelessness of this vast natural cathedral. Tall evergreen trees with their huge buttress roots, luxuriant lower storey undergrowth, clambering vines, spectacular butterflies and strange-looking insects are all integral features of this superbly-balanced and stable environment which is the end-product of millions of years of evolution. The potential species list is huge and includes such specialties as Crested Fireback, various species of Woodpecker and Hornbill, Banded Pitta and

Striped Wren-Babbler. Other specialities we have a good chance of observing include Black-thighed Falconet, Large Green Pigeon, Black-bellied Malkoha, Blue-rumped Parrot, Reddish Scops Owl, Rufous-backed Kingfisher, Banded Woodpecker, Black Magpie, Crested Jay, Black-throated and White-necked Babbler, Large Wren-babbler, Long-billed Spiderhunter and Crimson-breasted Flowerpecker. We should also come across at least one of Taman Negara's most difficult specialities, which include the extraordinary Great Argus, Malayan Peacock-Pheasant, Rufous-collared Kingfisher, the strange Rail-babbler and Grey-chested Jungle Flycatcher.

Overnight: Mutiara Resort Taman Negara, en-suite hotel rooms  
Meals Included: Breakfast, Lunch, Dinner

**Day 4: 24 April 2027**  
**Taman Negara to Fraser's Hill**

After breakfast and some final birding in Taman Negara we'll reluctantly leave this magical place behind as a change of scenery awaits us: the cool highlands of Fraser's Hill. This attractive hill station is surrounded by excellent broadleaved evergreen forests that offer a sharply contrasting avifauna to that of the lowlands, including the cute Pygmy Wren-babbler and the beautiful Long-tailed Sibia, as well as specialities like Fire-tufted Barbet, Black-and-crimson Oriole, Javan Cuckooshrike, the endemic Malayan Whistling Thrush, Rufous-browed and Pygmy Blue Flycatchers, Blue Nuthatch, Black and Malayan Laughingthrush while more difficult specialities include the endemic Malayan Partridge, Ferruginous Partridge, Yellow-vented Green Pigeon, Rusty-naped Pitta and Marbled Wren-Babbler.

Overnight: Shahzan Hotel, en-suite hotel rooms  
Meals Included: Breakfast, Lunch, Dinner

**Day 5 & 6: 25 & 26 April 2027**  
**Fraser's Hill**

We'll spend two full days birding the forests of Fraser's Hill. A relaxed pace, gentle climate and scenic environment make for great birding, while a range of excellent local restaurants will cater for various taste buds.

Overnight: Shahzan Hotel, en-suite hotel rooms  
Meals Included: Breakfast, Lunch, Dinner

**Day 7: 27 April 2027****Fraser's Hill to Kuala Selangor**

After an early breakfast and some final birding we travel and bird down the hills to the lowlands near the coast, picking up any key species we may have missed. Arriving in the town of Kuala Selangor we have lunch and check into our final hotel for the trip, before heading out again to bird the nearby bird-rich city park. Oriental Pied Hornbill, Greater Flameback, Ruby-cheeked Sunbird, Pink-necked Green Pigeon and Crested Goshawk are just some of the birds awaiting us here.

Overnight: Kuala Selangor, en-suite hotel rooms

Meals Included: Breakfast, Lunch, Dinner

**Day 8: 28 April 2027****Kuala Selangor mangroves**

This morning will find us birding the Kuala Selangor Mangrove and lowland forest reserve. Here the mangroves and coastal forests offer specialities such as Mangrove Pitta, Mangrove Blue Flycatcher, Mangrove Whistler, Chestnut-bellied Malkoha, Golden-bellied Gerygone, Lesser Adjutant stork and, with luck, Buffy Fish Owl. After a final, late lunch we check the Paya Indau wetlands to add some common waterbirds such as White-breasted Waterhen, Red-wattled Lapwing and a chance of Yellow Bittern, before we reluctantly head back to the airport for your flight home (own arrangement).

TOUR ENDS at ca. 5pm, fly after 7pm.

Meals Included: Breakfast, Lunch

Note: We can arrange for you to be returned to a hotel which we can book for you if you wish to stay on. Please don't book any flights departing before 7pm this evening.

**Or why not join our Sabah extension?**

From 29 April to 9 May 2027, we offer our Sabah tour. Located in northern Borneo, Sabah is a heaven for birders. Teeming, complex rainforests fan out from Mount Kinabalu to the lowlands and coast. The wildlife is incomparable, with a host of enticing birds (including 48 endemics) and a charismatic mammal fauna (including Orang-Utan). The tour includes 2 days at the world renowned Danum Valley Rainforest Lodge. An immediate return-client discount applies to the Peninsular Malaysia tour if you book both.
